Roman Malysh

FRONTEND DEVELOPER

Experienced Frontend Developer proficient in HTML5, CSS, SASS, JavaScript, React, TypeScript, Tailwind CSS, REST API, NPM, and Git. Skilled in creating user-friendly and responsive websites to meet business needs. I am also familiar with Vue.js and Next.js. Worked commercially with popular CMS platforms. Likewise, I specialize in building complex and dynamic web applications.

My international experience and advanced English language skills have provided me with valuable expertise in strategic planning, project management, and team collaboration.

Background as a Web Solutions Specialist and former co-founder on Amazon cultivated keen attention to detail, effective problem-solving, and a focus on delivering exceptional user experiences. These combined experiences enable a holistic perspective in developing high-quality solutions.

WORK EXPERIENCE

Job position here

02.2022 – Present
